

## An unseizing & lubricating fluid

### DESCRIPTION & APPLICATIONS

DEGRIP is a highly fluid product, with high penetrating power, which breaks down rust to unlock corroded assemblies.  
It then leaves an anti-rust and lubricating protective film on the treated surface.

### USES

Unlocking any seized assemblies: screws, nuts, studs, hinges, etc. in industry, the automotive or construction sectors.  
Give the part to be treated a rough clean.  
Dip it in the product, or spray the product using a sprayer.  
Leave to act for a few minutes before manipulating.

Characteristics	Standards	Units	Values
