

LAVE-GLACES TOUTES SAISONS -10°C is an aqueous solution based on ethanol, surface active agents and foaming agents.

ADVANTAGES

By virtue of its formulation, LAVE-GLACES TOUTES SAISONS -10°C possesses a low surface tension and a very high wetting power.

The very low freezing point of LAVE-GLACES TOUTES SAISONS -10°C gives it very good de-icing properties.

Anti-freezing protection down to -10°C.
 Non-corrosive for rubber seals, paints and plastics.
 Scented formula.

USES

LAVE-GLACES TOUTES SAISONS is a ready-to-use product for filling motor vehicle windscreen wash reservoirs.

Characteristics	Standards	Units	Values
Colour	Visual	-	Pink
Anti-freezing protection	NF T 78-102	°C	-10.4
Density at 20°C	NF T 78-103	g/cm ³	0.972
pH	NF T 78-103	pH unit	7.50
Flash point	ASTMD56	°C	35
Surface tension	NF T 73-060	dyne/cm	30

The characteristics are given purely for information and are consistent with our current production standards. IGOL reserves the right to modify them, in order to pass on technical developments to its customers. Before using this product, you should consult the instructions for use and the environmental impact shown on the technical and safety data sheets. The information given above is based on the current state of our knowledge of the product in question. The product user should take all relevant precautions relating to its use. Under no circumstances may IGOL be held liable for damages resulting from misuse.
