

Powerful water-based cleaner specially developed for cleaning engines.

DESCRIPTION

MOTOR CLEAN is particularly effective on organic soils such as grease and oil, and removes particles that adhere to engines (dust, carbon black, etc.).

The degreasing power obtained with **MOTOR CLEAN** will generally be much higher than that obtained with a conventional solvent-based product.

MOTOR CLEAN is soluble in water, regardless of its hardness, and is non-flammable, which means that even hot surfaces can be cleaned in complete safety.

MOTOR CLEAN is safe for plastics, rubber, paints and gaskets and has no effect on most metals. It contains a corrosion inhibitor which prevents rust from forming on treated surfaces.

USE

- ✓ Dilute **MOTOR CLEAN** between 5 and 10% in water.
- ✓ Application: by spraying or high pressure machine.

PHYSICO-CHEMICAL PROPERTIES

Characteristics	Standards	Unit	Values
Colour - Aspect	-	-	Yellow - Fluid
Specific gravity at 15°C	ASTM D4052	g/cm ³	1.08
pH in pure state	NFT 90-008	-	13.6
pH at 5%	NFT 90-008	-	11.1

For professional use only

Characteristics are given for information only and correspond with our manufacturing standards. IGOL reserves the right to modify them to provide its customers with the benefits of technical progress. Before using this product read the instructions for use and the environmental impacts mentioned in the technical and safety data sheets. The information given above is based on the current level of knowledge relative to the product concerned. The product user should take all useful precautions relative to its use. IGOL can in no circumstances be held responsible for damage resulting from incorrect use.
