

An evanescent oil for metalworking.

## DESCRIPTION & APPLICATIONS

Cutting and pressing operations.  
Applied by spraying, coating rollers, drip feed or brush.

A chlorine-free evanescent fluid, for difficult jobs on any metals (steels, stainless steel, light alloys or copper-based).

It possesses lubricity and extreme pressure properties.

Leaves an oily protective film. The parts can thus undergo a subsequent surface treatment or be stored, with the residual film providing protection against corrosion.

## ADVANTAGES

- No chlorine
- Extreme pressure
- Lubricity
- Oily protective film
