

Mineral oils for hydraulic transmissions with good antioxidant, anti-corrosion, anti-foam and anti-wear properties.

PERFORMANCES

Specifications :

NF E 48.603 : ISO-L-HM 15 22 32 46 68 100 150 220
 DIN 51524 Partie 2 : HLP 15 22 32 46 68 100 150 220

ADVANTAGES

SONHYDRO hydraulic oils are formulated with highly refined base oils and additives giving them the anti-wear, anti-oxidant, anticorrosion and anti-foam properties needed for use in hydraulic transmission and control circuits working in moderate temperature and pressure conditions.

Unaffected by shearing, they have a low pour point (freezing) and do not affect hydrocarbon resistant elastomer seals.

USES

All hydraulic controls:

- Public works equipment, cranes, excavators and miscellaneous machines.
- Lifting and handling equipment
- Machine tools, presses, injection and moulding presses, foundry equipment, scrap metal crushers, etc.
- Multi-vane rotary compressors (Ingersol-Rand type GYRO-FLO-MILL'S).
