

A silicone-free anti-foaming agent for aqueous systems.

PERFORMANCES

A silicone-free anti-foaming fluid for aqueous systems (machining liquids, process water circuits).
USIFOAM S is particularly tailored to synthetic machining fluids and to solutions in general.

ADVANTAGES

USIFOAM S features good solubility in water, which is why it has a long-lasting action. Its presence throughout the fluid prevents losses by swarf evacuation or filtration.

USES

- from 0.01% to 0.1% depending on nature of fluid and water quality.

Characteristics	Standards	Units	Values
Density at 15°C	NFT 60-101	kg/m ³	1001
Appearance	-	-	Milk-like fluid

The characteristics are given purely for information and are consistent with our current production standards. IGOL reserves the right to modify them, in order to pass on technical developments to its customers. Before using this product, you should consult the instructions for use and the environmental impact shown on the technical and safety data sheets. The information given above is based on the current state of our knowledge of the product in question. The product user should take all relevant precautions relating to its use. Under no circumstances may IGOL be held liable for damages resulting from misuse.
