

A plant-based wash cream with micro-brushing action, for professional soiling, such as soot, greases, oils, brake dust and tar.

ADVANTAGES

Based on natural ingredients (wood or clay powder).
Powerful degreasing action.
Creamy texture with soft microbeads.
Leaves hands pleasantly scented after wiping off.
Concentrated for economic use.
Contains karite butter, which nourishes the skin.
Free from oil-based solvent.
Formulated to minimise allergy risk.
Physiological pH.

USES

Automotive sector (mechanics, panelwork), industrial or craft trades.

Instructions for use: Wet your hands, apply a dash of the product and rub onto the hands in a circular motion. Add a little water while continuing to rub your hands, and leave to act (for up to 30 seconds). Rinse off your hands with plenty of water, and dry thoroughly.

Special precautions for use:

Always wet your hands before washing. Use on intact, uninjured skin (hands and wrists). Do not apply more than ten times a day. In case of a temperature drop or sudden temperature variations, do not exceed five applications per day. The presence of karite butter does not replace use of a hydrating cream.

Keep in a frost-free place.

Storage temperature between 5° and 35°C.

Keep out of the reach of children.

Do not swallow. If ingested, immediately seek medical attention and contact the closest poison control centre (ORFILA +33 (0)1 45 42 59 59).

Avoid contact with mucous membranes. In case of contact with the eyes, rinse with plenty of clean water.

Cosmetics regulation EC 1223/2009. Made in the EU. All substances are of EU origin and are authorised by the sanitary authorities. Product safety dossier made available to the sanitary authorities. Packaging compliant with the regulations.
