

MOUSSE LAVANDE is a product manufactured with plant-based substances.

ADVANTAGES

MOUSSE LAVANDE contains surface active agents with a natural and renewable sugar and coconut-derived copra base (renowned for its washing properties).

USES

MOUSSE LAVANDE cleans any washable surfaces, even the most fragile (floors, kitchens, toilets, earthenware, linoleum, wooden trims, carpets, etc.).

Can be used for manual washing up, and also as a manual car shampoo.

Instructions for use:

For 8 litres of water by soaking, cloth or sponge

Medium soiling: 5 to 20 ml i.e. approx. ½ a cap.

Tough soiling: use the product pure or diluted to 50%

Rinse with clean water

The substances in the formulation of this product are authorised for cleaning products aimed at equipment that might come into contact with foods.

Determination	Specification
Colour	colourless
Appearance	viscous gel
Odour	lavender
pH	7-8
Specific gravity	1.03
Free from dyes – free from phosphates – free from GMO – free from NTA and EDTA – free from silicone – free from optical brighteners	
Biodegradable raw materials – Not tested on animals	

The characteristics are given purely for information and are consistent with our current production standards. IGOL reserves the right to modify them, in order to pass on technical developments to its customers. Before using this product, you should consult the instructions for use and the environmental impact shown on the technical and safety data sheets. The information given above is based on the current state of our knowledge of the product in question. The product user should take all relevant precautions relating to its use. Under no circumstances may IGOL be held liable for damages resulting from misuse.
