

A synthetic aerosol fluid aimed at lubricating chains and conveyors working at moderate temperatures.

Reserved for professional use

PERFORMANCES

R-CHAINE can be used within a temperature range of between -40°C and $+210^{\circ}\text{C}$.

Fluid meeting the requirements of standard ISO VG DIN 51519.

ADVANTAGES

High thermal stability, and causes no deposits. This fluid is silicone-free and is compatible with any petroleum-derived lubricant.

USES

R-CHAINE is specially tailored to lubrication in agri-business.

The aerosol cans must be used within one year of delivery for optimum use; returns will not be accepted after this time.

The characteristics are given purely for information and are consistent with our current production standards. IGOL reserves the right to modify them, in order to pass on technical developments to its customers. Before using this product, you should consult the instructions for use and the environmental impact shown on the technical and safety data sheets. The information given above is based on the current state of our knowledge of the product in question. The product user should take all relevant precautions relating to its use. Under no circumstances may IGOL be held liable for damages resulting from misuse.
