

A graphite grease with 8% solid lubricant.

PERFORMANCES

Range of use: From -20°C to +50°C
Compliant with SNCF standard ST221D (rolling stock)

USES

A mineral-based grease obtained in gel form by means of an organic soap, and more particularly tailored to lubricating mechanisms subject to washing and water sprays. It is particularly tailored to high load stresses and moderate temperatures.

Characteristics	Standards	Units	Values
Appearance / Colour	-	-	Black, buttery
Nature of soap	-	-	Calcium
Grade	NLGI	-	2
Drop point	NFT 60-102	°C	98
Range of use	-	°C	-20 to +50

The characteristics are given purely for information and are consistent with our current production standards. IGOL reserves the right to modify them, in order to pass on technical developments to its customers. Before using this product, you should consult the instructions for use and the environmental impact shown on the technical and safety data sheets. The information given above is based on the current state of our knowledge of the product in question. The product user should take all relevant precautions relating to its use. Under no circumstances may IGOL be held liable for damages resulting from misuse.
