

**Biodegradable plant oil-based lubricant preparation*.
Reserved for professional use**

PERFORMANCES

NSF H1 registration no. 149426.

ADVANTAGES

VEGELUB is a must for general greasing purposes, whenever there is a risk of environmental pollution. VEGELUB features excellent lubricating and friction reduction properties.

USES

Specially tailored for general lubrication in agri-business.

Outdoor leisure activities (cycling, mountain biking, hunting, etc.) where there is a risk of environmental pollution.

Uses for general greasing under light loads and within a temperature range of between -10°C and 80°C.

The aerosol cans must be used within one year of delivery for optimum use; returns will not be accepted after this time.

Characteristics	Units	Standards	Values
Appearance	-	-	Translucent fluid
Colour	-	GARDNER	Yellow
Flash point	°C	NF T 60-118	>280
Kinematic viscosity at 40°C	mm ² /s	NF T 60-100	39
Density at 20°C	kg/m ³	NF T 60-101	930
*Primary biodegradability	%	NF T 60-198	>90

The characteristics are given purely for information and are consistent with our current production standards. IGOL reserves the right to modify them, in order to pass on technical developments to its customers. Before using this product, you should consult the instructions for use and the environmental impact shown on the technical and safety data sheets. The information given above is based on the current state of our knowledge of the product in question. The product user should take all relevant precautions relating to its use. Under no circumstances may IGOL be held liable for damages resulting from misuse.
