

An oil for releasing vibrated concrete from wooden or metal moulds and forms.

ADVANTAGES

VIBROLINE PREMIUM contains plant oils giving it good lubricity properties.

Its additives give it good water resistance and an effective anti-corrosion action.

USES

Apply by spray or brush.

Just one film is enough to ensure good mould release.

Any over-application is inadvisable.

For composite material moulds, it is recommended to carry out prior tests.

Characteristics	Standards	Units	Values
Viscosity at 40°C	ASTM D445	mm ² /s	11.6
Density at 15°C	NF T 60-101	kg/m ³	860
Pour point	ASTM D97	°C	-12
COC flash point	ASTM D92	°C	104
Viscosity at 40°C	ASTM D445	mm ² /s	11.6

The characteristics are given purely for information and are consistent with our current production standards. IGOL reserves the right to modify them, in order to pass on technical developments to its customers. Before using this product, you should consult the instructions for use and the environmental impact shown on the technical and safety data sheets. The information given above is based on the current state of our knowledge of the product in question. The product user should take all relevant precautions relating to its use. Under no circumstances may IGOL be held liable for damages resulting from misuse.
