

A complete maintenance kit that enables you to efficiently clean and lubricate motorcycle chains (both road and off-road), quads, ROVs, go-karts, bicycles, etc., equipped with O-rings, X-rings, Z-rings or not, while perfectly preserving all varnishes and paints.

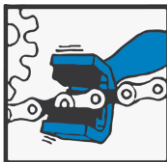

## SPECIFICATIONS

This kit consists of:

- 1 can of **PROPULS CHAIN CLEANER**, a non-chlorinated, solvent-based formulation that degreases all types of chains and efficiently removes the most stubborn greases and residues.
- 1 **IGOL BRUSH** specially developed for chains of all sizes.
- 1 can of **PROPULS VISCOCHAINE EVOLUTION**, a grease that lubricates chains while preventing spatter at high speeds on plastics and the swing arm while reducing power loss by minimising friction. It applies a protective film that protects against corrosion and provides optimal protection for O-rings, X-rings and Z-rings. It respects all varnishes and paints. This blue-tinted grease, combined with a multi-directional diffuser, ensures perfect application. The colour fades away after several chain rotations.

## INSTRUCTIONS FOR USE

- ✓ Spray the cleaner onto the chain.
- ✓ To optimise the cleaning process, use a brush that is specifically designed for this purpose.

- ✓ Allow to dry for 5 minutes.
- ✓ Then, lubricate the chain with **PROPULS VISCOCHAINE EVOLUTION**. To do this, direct the spray inside the chain at the O-rings and rollers, at a distance of about 5 cm and simultaneously rotate the rear wheel. The colourant in the grease will help you ensure uniform application of the lubricant.

*The characteristics are given purely for information and are consistent with our current production standards. IGOL reserves the right to modify them, in order to pass on technical developments to its customers. Before using this product, you should consult the instructions for use and the environmental impacts shown on the technical and safety data sheets. The information given above is based on the current state of our knowledge of the product in question. The product user should take all relevant precautions relating to its use. Under no circumstances may IGOL be held liable for damages resulting from misuse.*
